

EOS awarded 'A' rating

Hamburg, 10 July 2018 – Outstanding performance confirmed. For the 14th time in succession, EOS Holding has once again been given an 'A' rating by credit rating agency Euler Hermes Rating, providing renewed confirmation that the debt collection specialist enjoys a good credit standing. The auditors emphasized the company's market leadership in Germany and its strong market position in Western and Eastern Europe. The rating was also the result of the company's longstanding experience in processing non-performing receivables and in receivables purchasing.

"In the last financial year we have invested EUR 0.5 billion in receivables," says Justus Hecking-Veltman, Member of the EOS Group's Board of Directors and CFO. This shows how important this business segment continues to be for the EOS Group. "The acquisition of secured debt portfolios in particular is an attractive growth market for us," explains Hecking-Veltman. This is also evident from the auditors' report, because this year Euler Hermes Rating specifically praised the company's ongoing expansion of expertise in real estate evaluation, development and realization. "We are now active in this business segment in eleven European countries and plan to expand into others."

As a result, the auditors attested that EOS represents a low financial risk due to its very stable cash flow situation and continually high and consistent earnings level.

The EOS Group

The EOS Group is one of the leading international providers of customized financial services. Its main focus is on receivables management, in particular the three segments fiduciary collection, receivables purchasing and business process outsourcing. With its workforce of around 7,000 and more than 55 subsidiaries, EOS offers some 20,000 customers in 26 countries around the world financial security through customized services in the B2C and B2B segments. Working in an international network of partner companies, the EOS Group has resources in more than 180 countries. The company's key target sectors are banking, insurance, utilities, telecommunications, the public sector, real estate and e-commerce. For more information please go to: www.eos-solutions.com.
